

# Course Assignment

## Course Presentation on Assignment

Msc-452- Ecommerce programming

---

### **Assignment Title: Develop personal Website**

**Programming Languages:** HTML, CSS & (PHP, Javascripts) (Non mandatory)

**Technology to Use:** Notepad++/Visual Studio Code, Xampp (Apache & MySQL) / Web Hosting platforms

**Domain:** [yourname.com](#), [yourname.net](#)/ (any top level STDs). You can use Localhost / real domain as well

**Pages:** At least 5 Max10 (home, Contact, Education/CV is must)

**Website Type:** Personal website, Personal Blog, Personal Travel site ETC

**Other Platforms to be used:** Google Drive, Youtube.com

**Image, Icon & gif to be used:** At least 5 (png, Jpeg, gif)

**Icons:** use Fontawesome.com

**Fonts:** Use google Fonts in at least 1 page (the more the better)

**HTML Tags:** Need to use at least 10 HTML Tags

**CSS:** Need to Use at least 20 CSS Declarations

**Combinators:** use at least 3 Combinators.

**CSS Type:** Most CSS shall come from External CSS files and shall be called from multiple pages. One page must have at least one internal and another page must have at least one inline CSS.

**Layout:** layout can be any layout you prefer but the main contents detailed in our layout design must be available in at least one page.

**Responsive:** The Layout design must be responsive (at least PC & Mobile)

**Logo:** you must design/download one logo with your name and upload it in google drive and the logo shall be called from there.

**Assignment Document + Presentation:** The document shall be a one pager (10 lines max) and shall be uploaded in Google drive. This document shall be called from your website and viewable.

**The Presentation shall be no more than 5 minutes**, you explaining how/where you have used all the above. Also the 5 stage process of developing a website. This shall be uploaded in YouTube (you can use any video platform if you are not comfortable with YouTube/ any public video platforms) and called from your site using the iframe.

**Total Marks:** 15

**Deadline:** 19<sup>th</sup> March 2022

**It's an individual assignment and presentation.**

See, above are more of a guideline for you to build your website. Sky is your Limit.

Happy Coding!!!
